**FINANCIAL
SERVICE?**

Founder + Lightning financial was created to serve startups & scaleups that need the right resources and skills on a budget to suit for accountancy or CFO support.

CEOs AREN'T CFOs

Any CEO worth their salt can play with a spreadsheet or get around a P&L, but that's not going to cut it when you're in front of an investor being quizzed on KPIs & burn rates.

We provide CFOs with proven expertise, in flexible & affordable way.

We have the scars and successes and understand how hard your journey will be from idea to exit.

CEOs AREN'T BOOKKEEPERS

VAT returns, payroll, management accounts... they're no fun and a poor use of your time when you have a product and business to build.

Just paying for a mundane necessary evil makes no sense. So use a team that understand your journey, can flex to your budget and will implement systems and automation for a slick back office.

CEOs NEED THE RIGHT TEAM

Traditional accounts practices don't cut the mustard for dynamic tech start-ups.

Understanding what goes on day-to-day, why you're burning cash, what help you need to scale, the challenges that come in from all angles, and the constant cash runway struggles, is key.

Leave all that in our capable hands, whilst you concentrate on the bigger picture.
